

Foundation Update

Silver Anniversary Ball

On Saturday, October 24 the Knights of Columbus hall was transformed into a sparkling oasis as the Trenton Memorial Hospital Foundation held its 25th Silver Anniversary Ball. Over \$161,268 was raised from the event to help purchase a Holter Monitoring System for the QH-Trenton Memorial Hospital.

At the event Bill and Shirley Bigford were recognized as the Philanthropists of the year, and Sally Tripp was honored as the Volunteer of the year.

A Holter Monitoring System includes all the tools you need to record, analyze, diagnose, and communicate ECG- quickly and accurately.

Some reasons for your physician to request this procedure include, but are not limited to, the following:

- to evaluate chest pain
- to evaluate other signs and symptoms which may be heart-related, such as fatigue, shortness of breath, dizziness, or fainting
- to help identify irregular beats
- to further evaluate arrhythmias noted on a resting ECG

New Pascal Laser Unveiled!

Picture above- Dr. Andrew Davies and Mr. Harvey Gere

After several months of fundraising, members of the Ophthalmology team at Quinte Healthcare Trenton Memorial, along with Lions International, Lions District A-3 and Wendy Warner, TMHF, Executive

Director, got together to unveil the new Pascal Laser. Over \$166,800 was collected, including a matching grant of \$73,311.22 from the Lions International.

This new Laser will enable physicians to perform more eye treatments along with the current Cataract services already being provided by our Ophthalmology Centre of Excellence at QH-TM. This Laser allows treatments to be done more efficiently and minimizes the need to travel to other facilities.
