March 30th National Doctor's Day

National Doctor's Day is a time for people to show appreciation and say thanks to the doctors that care for them. Doctors perform vital diagnosis, treatment and care for yourself and your family. When you are well, your doctor keeps you well. When you are sick, there is no other person more important to you than your doctor.

Doctor's Day observances date back to March 30, 1933. It was started by Eudora Brown Almond of Winder, Ga. The day marks the anniversary of the first use of general anesthesia in surgery.

Whether you are a patient, family member of a patient, work for or with a physician, or are simply a well-wisher, express your gratitude for all the efforts a doctor has done for your health. With a small token of appreciation to your local hospital foundation, your doctor will receive the recognition he/she deserves.

Has a physician recently improved the quality of your life or perhaps that of a loved one?

Has your doctor been there by your side during a difficult time?

Help us make Doctor's Day special for the physicians in our community.

How Does it Work?

1. Make a donation to your physician's area of specialty or to the hospital's greatest need by completing the form attached.
2. Fill in the attached Donation Card with your physician's name and a short appreciation note.

Place the Donation Card(s) into an envelope and mail to:

**Doctor's Day

3. Your tax-deductible gift will be acknowledged in several ways: your gift will be recognized in Foundation publications; your physician will receive a copy of your Appreciation Card.

The donation amount is kept confidential and not disclosed to the physician and all Appreciation Cards will be placed on display at QHC – Trenton Memorial Hospital.

“ The evening of December 19 forever changed our lives as a family but most of all (our daughter's). The skilled actions of Dr. Stewart, Dr. Kaladeen, and several nurses and paramedics have saved our daughter's life! The appropriate words seem impossible to find. To express to all of you, who have given us back our daughter, to simply say “Thank you” seems inadequate! You are all angels who walk amongst us! ”

Sincerely, MSA & HL

“ On June 28/10 I had day surgery. I don't recall the names of the nurses or anesthetist but I just want to express my thanks to everyone involved and of course Dr. Rizvi. ”

J.L.

“ Dr. Jack Hilton has been so good to myself and family and we are grateful to him. We admire his efforts on behalf of QHC-TMH and what we are trying to maintain. ”

B.W.

“ To Dr. Cooke, thank you for making our mother feel as if she were your only patient. The time that you spent with her explaining very thoroughly everything about breast cancer is a testament to your persona.

Dr. Healy and the mammography staff, our sincerest thanks for the kind, dignified manner with which you treated our mother. Your ability to lessen my mother's anxiety and to inspire hope were appreciated far more than mere words can convey. ”

AC, TMcK, CM, PC and PC

“ I want to thank the doctor and staff who cared for me when I went for X-rays on June 7. They treated me with such care and consideration that I was overwhelmed. ”

I.F.

“ We would like to take this opportunity to thank Dr. John Bonn and the Emergency ward staff of QHC Trenton Memorial. We cannot thank you enough for your care, professionalism and your high standard of efficiency. Please accept our heartfelt thanks. ”

Sincerely, M&KC
