Corporate Partner Programs

Companies and Employees Making a Difference in Healthcare

Payroll Deduction Program

Many companies enjoy fundraising through a simple Payroll Deduction Program when they want to contribute to a charity. The process is very simple, yet makes a big impact on the charity.

For example:

- If one employee donates \$5/ pay
- Their annual donation will be \$130
- If your company has 500 employees and 25% donate
- The total annual donation from the company would be \$16, 250

Now:

- If your company has a Matching Gift Program, this contribution doubles to \$32,500
- At year-end, you will receive the exact total of your charitable donation on your T4 slip.

Matching Gift Program

For every donation to a charity made by staff, family member, or a company retiree, the company will match the donations. This is a great way to motivate people within your organization to fundraise!

Icon Promotion

Customers can purchase QH-TM icons at cash out. These icons will be provided by the Foundation.

“Round it up” Program

Ask customers if they would like to round their purchase to the nearest dollar with the extra proceeds going to QH-TM. The cashier can place proceeds in a display jar.
